

# Product Information

## Agricultural & Forestry equipment

AKG develops and produces customized heat exchangers for agricultural & forestry machines.

Coolers must be hardwearing and reliable under wide temperature variations – twenty-four hours per day.

Special cooling air fins guarantee continuous operation without stoppages and downtimes either on field or forest.

**AKG offers the right solution for all cooling problems!**

## Fields of application

- Harvesters
- Forwarders
- Forestry tractors
- Knuckleboom loaders

- Combine harvesters
- Forage harvesters
- Pre-reapers
- Tractors
- Telescopic loaders
