

Engineered to Keep the Rail Industry in Motion

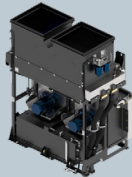

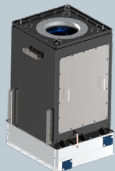

High-performance thermal management solutions for Diesel, Hybrid, and Full-Electric Locomotives, Rolling Stock, and Rail Infrastructure. Built for reliability, efficiency, and demanding operating environments.

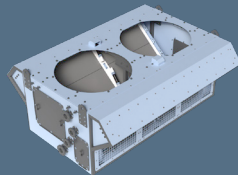

Roof Mounted Cooling Systems

- Low Noise
- Modular

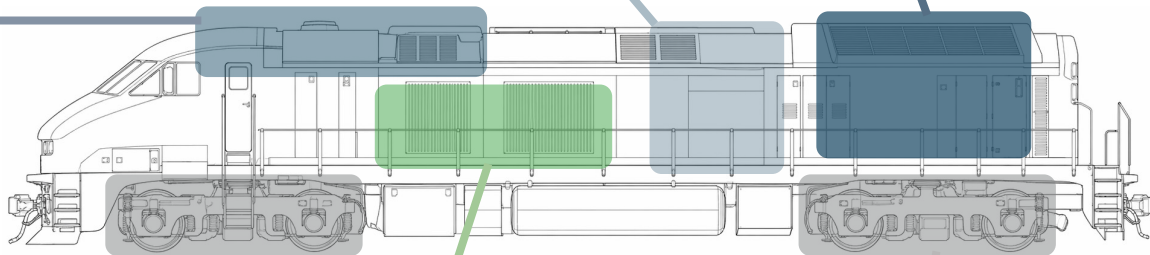

Cooling Systems for Transformers and Inverters

- Diesel, Electric, and Hybrid Applications
- Part Sets or Complete Systems
- Plug-and-play and Custom Options

Cooling Systems for Engines

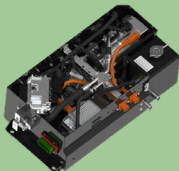

- Diesel, Electric, and Hybrid Solutions
- Modular and Scalable

AKG of America, Inc.

Battery Thermal Management Systems

- Near Maximum Efficiency
- Light Weight
- Long-term Support

Traction Cooling

- Aerodynamically Optimized
- Light Weight
- Low Noise
